

## To NCHA Videographers

The Video Support Team (VST) was organized to provide a unique branch of support for all NCHA show videographers. The VST answers questions concerning not only what the current year's rules are but also provides a support aspect to help any and all of you when it comes to technical questions about video equipment and techniques.

As each new year rolls around some of the newest rule changes are highlighted on the VST website. This year please read, sign and send the "Videographer Code of Ethics" form back to the NCHA Director of Judges office ASAP.

As always look over the newest NCHA Rulebook for any updated rules that pertain to the video support of NCHA sanctioned shows.

Here is a reminder concerning all videographer's that support NCHA shows:

You **MUST** be a registered NCHA member.  
You **MUST** be a registered videographer on the NCHA VST website.  
You **MUST** update your support information *EVERY* year.

Every one of you are making a difference in supporting the NCHA to the fullest! Your efforts are helping judges to make the best calls that benefit the competitors.

Thank you!
